Summary

Meet Abel, a Software Engineer with a passion for building dynamic and engaging software . With a background in JavaScript, Node.js, React, and Tailwind. When not coding, he enjoys staying up-to-date on the latest industry trends and experimenting with new technologies.

Experience

Full Stack Engineer

H-educate

Nov 2022 - Present (9 months)

- I work collaboratively with the team to achieve project goals through effective teamwork.
- Actively contribute to the development of a positive team dynamic by fostering a culture of mutual respect, trust, and accountability.
- Use agile methodologies such as Scrum to manage team workflow and track progress toward project milestones.
- I seek out opportunities to learn and grow professionally, both through individual learning and through collaboration with your team.
- I support the team by providing assistance when needed and seeking help when I encounter challenges.
- Contribute to the development of new systems, procedures, and tests by analyzing work and generating logic.
- I use my technical skills in NodeJS, ORM, SQL/No-SQL, and NGINX to develop and manage databases and create interactive user interfaces to improve user experience.
- I Estimate work hours and track progress toward project milestones, contributing to the team's overall success.

Software Engineer

Joseck Consultancy

Nov 2021 - Feb 2022 (4 months)

Analyzed problems and worked with a team to develop solutions.

- Explored new technologies and approaches to streamline processes.
- Conducted extensive research for startup company projects.
- Collaborated with senior management on new initiatives to build confidence.
